

ONE COMPANY ONE SOLUTION

Being a family owned business, founded by a chemist, technical support is not only a cornerstone of our business it is reinforced in every employee. Founded in 1982, Phoenix Products Company has been formulating high quality American Made products for the pool and spa industry. We have grown largely because of our belief that the relationships we make with our customer's is important and that our #1 product is service in Connecticut. All of our staff will work with you as an individual, regardless of the size of your company to ensure that you get the product delivered on time, and that you get the answers to your questions quickly. We operate our own fleet of trucks delivering throughout the greater Northeast USA, along with the ability to deliver nationally. We look forward to having a chance to work with you!
